

## Creating a Multimedia Presentation      Media Investigations

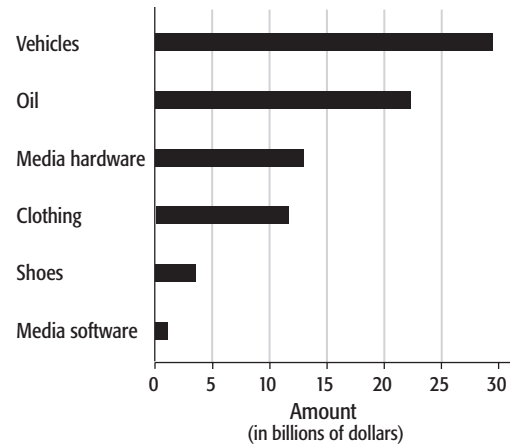

The use of charts and graphs can greatly improve a multimedia presentation. Such visuals can convey a lot of information to an audience very quickly and can help make the speaker's points more convincing. Charts and graphs can be presented in a number of ways, from simple drawings to computer models to three-dimensional models. Examine the graphs below and answer the questions that follow.

**UNITED STATES EXPORTS, 2004**

Source: U.S. Census Bureau

**U.S. IMPORTS, 2005**

Source: American Manufacturing Trade Action Coalition

**1.** How would these graphs be useful in a multimedia presentation on U.S. trade policy?

---

---

---

---

**2.** What are some other ways that this same information might be conveyed in a multimedia presentation?

---

---

---

---

**3.** Create an outline and list of visuals you would choose to use in a multimedia presentation on U.S. foreign policy.
